

E-learning: Trips & slips

Synopsis

Do you want to improve your team's liability decision making? Do you want to grow their confidence as well as your company's profit margins?

Our unique EL/PL liability e-learning scenarios help to develop strong liability decision-making skills and ensure a consistent approach across your team.

This highly interactive, affordable e-learning course is a must for junior solicitors, legal executives, paralegals and claims handlers who undertake employers' liability and public liability work.

Duration

15 scenarios of 5 -10 minutes duration

Format

You can work through the modules of the course at your own pace. You can stop at any time. The next time you log-in you will be prompted to restart where you left off.

Delegates

Perfect for claims handlers, litigation executives, paralegals and apprentices who handle tripping and slipping claims

Outcomes

As a result of completing this e-learning, delegates will:

- understand the importance of gathering evidence before making a liability decision;
- know how to investigate liability in slipping and tripping claims;
- be able to take a systematic approach to assessing liability;
- understand the importance of legislation;
- have an understanding of the caselaw which applies to different accident types.
