

Motor Fraud and Fundamental Dishonesty Training

Synopsis

The massive cost of motor insurance fraud means that it's vital to know what to look for and when to refer claims to fraud teams. This e-learning course uses animated reconstructions so that claims handlers can analyse whether an accident has been staged or is fraudulent in some other way.

Anyone who handles claims

30 minutes

Outcomes

As a result of this course you will know:

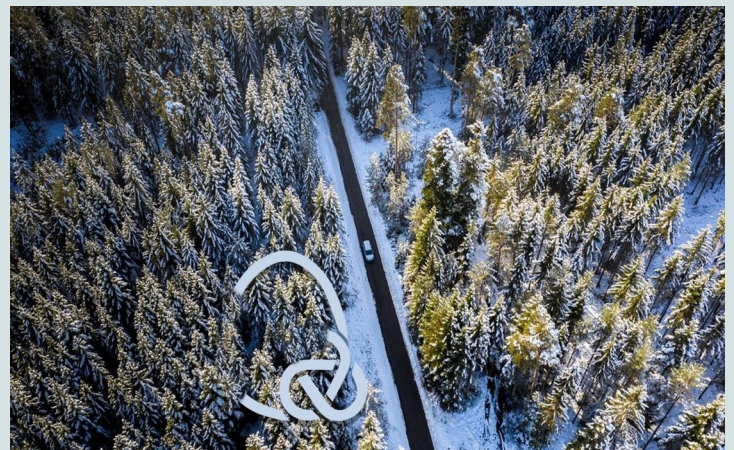

1. the main types of insurance fraud in motor claims
2. the warning signs that indicate a fraudulent claim
3. what further information you should try to gather
4. what to do if you suspect a claim is fraudulent

Content

This e-learning course looks at fraud in motor claims arising from:

- "Crash for cash" incidents
- Induced accidents
- Staged accidents
- Fundamental dishonesty under the CJCA 2015

The course includes accident reconstructions which are supported by barrister's opinions by video on the evidence, the law and the relevant parts of the Highway Code. The course also provides information on the potential consequences of fraud.
