

Proactive Litigation in Motor Claims

Synopsis

This proactive litigation in motor claims live online course uses realistic documents based on a road traffic accident claim.

The course emphasises the importance of analysing the pleadings, spotting weaknesses in your opponent's case, testing the strengths of the evidence on both sides, and looks at tactical choices as the case progresses. It also looks at professional ethics, including duties to the court.

The course can be tailored for Defendant or Claimant firms.

Paralegals, legal apprentices, trainee solicitors, junior lawyers, claims handlers

2 hours

Outcomes

As a result of attending the course, you will:

- understand your obligations on disclosure
- know how to complete a list of documents
- know which documents are privileged
- consider the cause of action when handling disclosure and witness evidence
- understand the importance of cross-referencing disclosure and witness evidence with pleadings
